BANGOR, Oct. 23 1456

M. E. RICE.

Cheap & Convenient Building.
Door, Sash and Blind Factory
A. DUNEAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is ready to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately so that the carpenters have only to put them in their places in the structure.

This business has now become so well systematized that only a small margin is left in knowing beforehand the cost of a dwelling-house, which this work is of a number exceedingly small.

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained on large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted and will hang them at the shortest notice.

By long experience and by determined perseverance, the subscriber is now enabled to sell his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and imperfect methods.

SIXTH SEASON
—OF—
OLIVER A. LUNT'S Dancing Academy!
Lewis' Block—Main St.

JUVENILE CLASSES will commence on WEDNESDAY, Sept. 20th, at 2 o'clock P. M. Adult Classes can be formed to suit the convenience of parties. The subscriber is most happy to inform his patrons, and the public generally, that he will present to them the latest, and most fashionable styles of Dancing now taught.

Among the new Dances are several which are now taught in the best Schools of London and Paris. These include the Varsovienne, Cosaque, Redowa Waltz, Esmeralda, and the various forms of Polka and Redowa Dances.

New Styles of Quadrilles and Waltzes will also be introduced, which, with the superior advantages offered pupils for practice, will, it is hoped, meet the approbation of all.

For terms, please apply to the subscriber at the Hall, Lewis' Block, Main street.

Sept 4th OLIVER A. LUNT.

THE HATCH HOUSE,
Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

STANLEY HOUSE,
WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has purchased the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and only a few minutes' walk from the State House.—

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

50 DOLLARS REWARD

WILL be paid to any person who will give information of the person or persons who broke open my trunks at Dowse's Hotel, Bangor, on week the 22d and 23d of September, and took from them steel plate impressions and certified copies of Murphy's Extract of European Narrow, Albany, New York—with the apparent design of using them on some spurious compound. Information may be lodged at this office.

The reward will also be paid for the detection of the person upon whom the plates and bills may be found.

CUTTING'S PATENT
AMBROTYPES!
B. F. CAMPBELL,
No. 145, Hanover Street, Boston,

is now prepared to take Pictures of all varieties from large frames, to small Lockets and Pins, at moderate prices.

The Ambrotypes being hermetically sealed between two plates of fine glass, are proof against the action of water, and in the various climates and are the only pictures that remain unchanged by time.

They are not reversed, can be seen in any light, are bold and clear in effect, and beautiful in tone. They can also be taken in a few seconds, rendering them far preferable for children and those who can not bear strong light.

These Pictures seem destined to supersede all others, now in use, and none are genuine unless stamped "CUTTING'S PATENT."

FURNACES,
Furnaces & Stoves!

THE Subscriber respectfully calls the attention of the public to his assortment of STOVES, RANGES and FURNACES, and would especially invite their notice to his new *COOKING RANGE* call the Champion, of which there are seven sizes—two portable and five Brick, suited to all varieties of families, from the smallest private house to the largest hotel. The Champion can be set with two fire rooms, also hot water and hot air fixtures. The dwelling to be located and so constructed, as to make most perfectly with a small consumption of fuel the hot air fixtures for this Range are the invention, and warranted to produce double the amount of heat any others do; in short the Champion, either portable or brick, is a perfect article in every respect. Also, Winchester's Hot Air Radiator claims particular attention, being the handsomest and most economical Stove ever offered to the public. There are four sizes, adapted to Parlors, Sitting Rooms, Chambers, School Houses, Halls, Stores, and in fact to all classes of rooms designed to be heated by a Stove. Secure right of ten hundred of the Radiators were sold last season, giving entire satisfaction, and having made some improvements for the present season, we now offer it, feeling confident it cannot be equalled by any other Stove. Also, Rice's celebrated Hot Air Furnace may be found here, together with the Radiating Portable Furnace, and a good variety of the most popular Cooking, Parlor and Office stoves, all for sale at the lowest market prices at wholesale or retail.

TO FARMERS!
Muriate of Lime.

THE high price of the special Manures, Guano, &c., first led to the composition of a fertilizer, which should combine all the good qualities, but whose price should place it within the reach of the poorest of the cultivators of the soil. The increased demand for last season, together with the voluntary testimonials of many who have proved its efficacy, leads the manufacturer to believe that the object has been obtained in the Muriate of Lime, and has induced him to extend the facilities for its manufacture. It has been tried upon almost every variety of soil, but is generally adapted to Cereal Plants, Grass, Corn, Wheat, &c.

A pamphlet, with testimonials, showing its effects upon the Grape Vine, Corn, Potatoes, in relation to rot, as a preservative; Strawberry, Rose Bags and Turnips of all kinds, Beans, Peas, and all pod bearing plants, its effects in destroying the worms and other insects, its great value in the Apple Tree; also its effects on Grass Land; producing a better crop the third year than the first effect. In a word being perfect in its effect whereas Guano has to be applied every year,—will be forwarded to any address, and all orders by mail, accompanied by the cash, punctually attended to. It is sold at the following fixed prices: For less than 10 bbls. $1.10 per bbl.; over 10 bbls. $1; or in bags of 150 lbs. at 75 cents per bag for over 10 bags. Less than 10 $1 each, delivered at any depot or wharf in Boston or Charlestown.

PRINCE & CO'S
Unrivalled Melodeons

Mr. Editor:—Dear Sir,—No. 17 Tremont Row, Boston, Feb. 1, 1856.—At your request, I have examined one of the Melodeons manufactured by Messrs. George A. Prince & Co., of Buffalo. I think the instrument in all respects equal, and in some respects superior to any others of similar kind which I have seen, and in part clear with respect to quality of tone and promptness of touch or action of the reeds; by which such passages may be performed with certainty and delicacy of execution of tone. An instrument of this kind is the best substitute for an organ, in church music, with which I am acquainted.

CHEAP AND SAFE LIGHT.

NEWELL'S PATENT SAFETY LAMP AND LAMP FEEDER:—Warranted to prevent all accidents from the use of Burning Fluid, Patent Oil, Rosin Oil, Camphene and all other explosive compounds, used for the production of light. This invention is applied to Common Fluid, Solar and Camphene Lamps, Lamp Feeders, Fluid Holders, Lanterns, &c., &c.

We respectfully invite the attention of the public to Newell's Improved Solar Fluid Lamps in the argand form, which gives a steady, brilliant flame, the nearest to gas that has ever been produced, the cost of burning being less than one cent an hour.

These Lamps are particularly adapted for Churches, Hotels, Factories, Stores and Parlors. Oil, So are can be altered using the same shade. Common Fluid Lamps can be changed to Safety Fluid Lamps.

Professor Silliman says, "All the so named burning fluids are explosive, whether liquid or colored, and to prevent that they are not so liable to deceive the public, but with the protection above named, I should have no hesitation to use it, and I do with entire confidence recommend it to my friends and others who consult me on the subject, always protest against its unguarded use, which has produced so many distressing and fatal results."

These Lamps have been extensively used in all parts of the United States for more than four years, and there has not the slightest accident occurred with them. They have the opinion of the greatest scientific skill of the country, such as Prof. B. Silliman, Prof. J. Robb, Dr. Charles T. Jackson, Dr. A. A. Hayes, &c., &c.

We keep constantly on hand the best Burning Fluids.

CARD.—Boston, July 1, 1856.—The subscriber, having for several years manufactured Varnishes for Messrs. Stimson & Price of Newark, N. J., takes this method to inform their customers of his ability and consumption of Varnishes, that he is now engaged and interested with Messrs. Stimson, Valentine & Co., of Boston, in their Varnish establishment, and will gladly wait on them for the firm the patronage of their friends and the public.

JOHN BABCOCK.

DISEASES SUCCESSFULLY TREATED.

REMARKABLE CURE PERFORMED.—*Words of Advice and of Caution.*—Encouraged by the very liberal patronage bestowed upon me by my friends and the public during the past few years, and the extraordinary success which has attended my efforts for the cure of the sick, I am determined not to relax my exertions to further excellence, but rather to prepare myself for renowned labors in my undertaking.

That diseases pronounced incurable can be cured, I have abundant proof in my own experience. To name a few instances I will mention Mrs. R. cured of vomiting blood after having been given up by her family physicians to die. Mr. B. cured of a violent eruption over his hands and parts of the body, and pronounced incurable by about the best physicians in Norfolk county. Mr. L. cured of consumption. Mrs. H. of liver and kidney complaint. Mrs. T. of cancer in the breast so large as to put both bowls. Mr. B. of secondary symptoms, after having been brought near the grave under the treatment of other respectable physicians. Miss M. of constipation. Mr. C. of very alarming consumptive symptoms and I might go on with such cases and full columns. If I will give any one the full name of any of the above I shall apply to me at my office.

Hope, then, ye for the sick.—I do not make a business of sending middle men or agents, but rely for speedy and sure cures upon being able to prescribe the medicines myself. Persons can consult by letters and have their medicines sent by express.

Advice I am always willing to give freely, and persons calling upon me need not feel under any obligation to take medicines, unless they choose to do so.

Words of Caution.—The world is in danger of receiving much good there is much evil doing. Do not be anxious to be experimented on. For ten years I have found my medicines to be satisfactory and efficacious, and the public may rely that they will do what is promised for them.

I warrant a cure in all curable cases. If a person gives my remedies a fair trial without receiving the promised benefit, and I afterwards cured by some other physician, I will refund all the money paid me.

A full description of my medicines, and many certificates of remarkable cures, together with much useful information, can be had by applying at my office. My book sent by mail on receipt of a postage stamp.

The following are among advertising cards:—

E. D. SPEAR, INDIAN DOCTOR, so much celebrated for his remarkable cures, may be consulted at his office, No. 18 Kneeland street, from 9 A. M. to 9 P. M., upon all diseases and conditions of the human system, free of charge.

As usual, Dr. Spear gives special attention to chronic forms of disease, Humors in the Blood, Dyspepsia, Consumption, Skin Diseases, Urinary difficulties, strangers consult one of the Ancients, Liver and Heart Rheumatism, all female diseases, especially Prolapsus Uteri, and Menstrual suppressions, weaknesses and debilities.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and obtain his remedies.

Dr. Spear will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician who will effect a cure, his bill, not exceed his $100. Persons at a distance can consult him by letter, inclosing a stamp to pay the postage.

DAGUERREOTYPES!
Rooms---No. 1 Main Street.

THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened a new and spacious suite of Rooms in the city for making Ambrotypes.

The genuine Ambrotype, (among other things that distinguish it from all other pictures,) is taken upon the plate glass, upon which is placed another glass, the two being united by an indestructible gum, thus secuting it from dust, dampness, or liability to damage from any source.—The pictures are not reversed, are free from that unpleasant reflection peculiar to the Daguerreotype, and are the only photographic pictures that do not change.

Those having pictures they wish to preserve, can have them copied by this process.

The public are respectfully invited to examine our pictures and our Rooms.

Entrance next door North of No. 1 Main Street.

N. B.—The genuine Ambrotype can be obtained only at our Rooms.

Singer's Sewing Machines.

THESE celebrated machines are in perfectual and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in construction and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year, but an imperfect one is a source of constant vexation and loss. The entire reliability of our machines is one great reason for their unrivalled popularity.

MACHINES FOR FAMILY SEWING, of a small and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The trifling, family sewing machines ought to be stronger than any other, because they are put to less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style, will be placed out on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a Copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

THURSDAY, NOV. 6, 1856.

THE ELECTION.

We have so few additional returns from this State that we omit our tables until more complete. The towns received one week may are all of the same completion as those published—showing a steady gain for the Republican ticket.

Eight towns in Piscataquis show a gain of 156.

The majority for Fremont in glorious old Penobscot will go up we think to near 3500.—In the whole State it must come close upon 23,000. Maine is the banner State of the Union. Her sons may point with pride to that grand vote for freedom; and her Republican party may well exult in their glorious position before the country.

From other States we present the following results as they now appear—reserving any lengthened comments until the details are fully ascertained.

Maine for Fremont by about 23,000 majority.

New Hampshire for Fremont, by 1200 majority.

Massachusetts for Fremont by probably 60,000 plurality.

Vermont for Fremont by probably 28,000.

Connecticut for Fremont by about 10,000.

Rhode Island for Fremont by 5000.

Pennsylvania for Buchanan.

New York for Fremont.

New Jersey for Buchanan.

Maryland for Fillmore by 8,000 or 8,000.

Ohio for Fremont by probably 30,000.

Indiana claimed for Buchanan by 15,000.

Mississippi for Buchanan.

Louisiana, Illinois, and Kentucky doubtful.

[For the reports from these and other States see the telegraphic despatches.]

New England and New York go in a solid body for freedom by overwhelming majorities and there is no doubt that *Fremont has a majority of at least 100,000 of the popular vote of the Northern States over Buchanan.* Is not this a satisfactory and an encouraging fact for the Republicans, even if elected by the clinging of pro-slavery votes of the Fillmorites, of Pennsylvania?

The brave, noble, patriotic and intelligent people of New England stand up for the principles of freedom as their fathers did in the Revolution, and abide by and contend for them until, as then, the heaven shall cleave the whole lump.

New England and Massachusetts.—The vote of New England for the Republican ticket is glorious, beyond all precedent in the history of the country. Fremont has a majority in the six States of over ONE HUNDRED AND THIRTY THOUSAND.

Old Massachusetts rolls up a tremendous plurality of 60,000, and a clear majority of 20,000 to 40,000. In Middlesex county Fremont has 17,250, Buchanan 7,691, Fillmore 4,300. Worcester county gives Fremont 13,673, Buchanan 3210, Fillmore 980. Suffolk for Fremont 8,675, Buchanan 6,852, Fillmore 1,142, Boston giving Fremont 2,200 plurality. Essex county, Fremont 16,377, Buchanan 8,561, Fillmore 2,633. The Fillmore vote in the State probably is not more than 20,000.

Burlingame is elected by 70 majority, and the whole Congressional delegation is Republican. State Senate 40th. House a most entire for the Republicans.

BANGOR FREMONT CLUB.—BURLINGAME'S ELECTION.

At a meeting of the Fremont Club last evening, the following resolution was passed:

Resolved, That the Fremont Club of Bangor present their thanks to the Republicans and friends of Freedom in the Fifth Congressional District of Massachusetts, for the re-election of Hon. Anson Burlingame—thereby vindicating the honor and the courage of New England.

FATAL ACCIDENT.—Mr. Joseph Stront, of Millbridge, while in the act of getting a load of stores attached to a cart, the stores from some cause taking fright, was thrown down and one wheel passed over his neck and shoulder in such a manner as to cause his death in 24 hours after. He tried to extricate himself, but being between the stores, was unable to do so. The accident occurred the 18th inst. Mr. S was a worthy citizen and kind man, and leaves a widow and children to mourn his loss.—*Machias Union.*

THAT CALF AND COW STORY.—The Republicans gained in Levant net 48 votes, and in Bangor 140, from the September Election. So much for the credibility of the cow and calf lecturer.

FOR THE HEGIRA.—Travelling some time since by railroad from Columbus to Baltimore, I took my seat immediately in front of a gentleman who was suffering under a paroxysm of hiccups, to a degree that I had never before witnessed. In a few minutes a person appeared from the end of the cars, and took a seat behind him, when he said: "Sir, can you tell me what is good for the hiccups? I have been afflicted in the way you see me since yesterday noon, and have had no rest or relief from any physician to whom I applied for assistance. I am worn out with suffering." To whom the person replied: "Sir, I can cure you in less than two minutes by the watch. Have confidence, for I am sure I can do it.—Hold up high above your head two fingers of your hand; lean back in your seat, open your mouth and throat so as to give free passage to the lungs; breathe very, long and softly, and look very steady at your fingers. In less than the time specified the cure was performed—one hiccup only occurring during the trial.—The patient could not express his gratitude, while the practitioner only exacted from him as a fee, the promise that he would extend the knowledge he had imparted as freely as he had received it, assuring him that he would never be disappointed in the result. We were all struck with the fact. Since then I have often had occasion to practice upon patients in the same disorder, and never without the recent signal success.—*Water Cure Journal.*

BUCHANAN'S CITIZENSHIP.—At the recent Buchanan meeting in Pennsylvania sentiments were responded to with three cheers, given with a will:

"The burning of Lawrence and destruction of the free press of that place."

The Whig Ticket.

No man who is at heart a whig will vote any other than the whig electoral ticket. No whig who is aware will give credence to the idle talk of the republican organs, that whiggery has been sold out. The Fremonters, despairing utterly of the success of their candidate, and driven to the wildest desperation are putting forth all sorts of ridiculous stories, that the whig rank and file have been sold out.—By whom sold out? Will anybody reply?—The truth is, a more absurd delusion, that the whig party has been transferred to any other party—was never uttered, and the lying Fremonters know this full well.—*Bost. Tribune, 4th.*

COMMENT.—Vote for Patten in September 6,000.

Vote for the Fillmore, whig or scattering ticket in November, about 2000. The whole concern isn't worth making much talk about—but the returns show that half or two-thirds of Patten's vote has been given to Buchanan. The leaders "sold out" as many as they could, to them.

Look at the vote of Waldoboro where Patten had 429 votes and Wells 240, in September. Now the "Whig" ticket which the Tribune says is about to lustily gets 23 votes, (instead of 429) and Buchanan gets 530, instead of 240 for Wells. Is not this evidence enough of transfer? Many of the Straight Whigs, however, in other places—to their honor be it said—refused to be transferred. Some voted for Fremont, and a few held on to the forlorn ticket which the Tribune calls a Fillmore ticket, but for which the Bangor Journal has no name at all.

THE MONTREAL ILLUMINATION.—The State of Maine informs parties intending to join in the excursion to Montreal on the 12 inst. 13th, that parties holding cards of invitation from the Montreal Committee can take the Express train from Portland at 6 o'clock, in the forenoon, on Tuesday, Nov. 11, and return by the Express train on Friday. It also states that parties holding cards of invitation, can go over the Grand Trunk line at any time before the celebration and return any time during the same week. We learn further that the 7½ regular train from Portland on Tuesday morning, Nov. 11, will take the passengers brought to it, at Yarmouth and Danville Junction by the connecting roads and take them to Reed's, where they will join the excursion train, which will not stop any of the way stations this side of South Paris.

Passengers are respectfully advised to avoid carrying hand baggage, and to have their trunks well secured, and marked with the same number as that of their card of invitation, and sent to the depot at an early hour on Tuesday morning or on the evening previous. Attention to these suggestions will save much confusion and delay.

LAMPREY CASE DECIDED.—A Board of Referees, consisting of Judge Gilchrist of the U.S. Court of Claims, Hon. A. S. Woods, late Chief Justice, and Hon. Ira A. Eastman, one of the Judges of the Supreme Court of New Hampshire, decided two cases at Concord on Thursday wherein the Boston and Maine R. R. sought to recover of the Concord road and Boston Concord and Montreal Railroad, either or both, about $1,000 damages, cost and interest, caused by an injury to one Emi Crockett, a boy six years of age, who came from Sanbornton, N. H., on a ticket to Lawrence and then passed on to the Maine Road as a passenger for Bradford Mass., on which route he received the injury.

The defence of the Concord road was that they took no ticket on the case. That of the Boston, Concord and Montreal—is, that at the time of the accident there existed no contract of indemnity between the corporations; 2d, that there was no contract, no adult in the party had ticket, a child's fare only, and in passing the point seemed plaintiff's passenger; 3d, that the boy injured passed over the road without payment of fare—as a head-beat—and each road was therefore responsible on its own road. The referees decided in favor of the defendants in both cases.

The Boston Journal announces the death of Hon. Samuel Hoar, at Concord, on Sunday last, at the age of 79. He will be remembered in connection with his mission to South Carolina some years ago, to plead the rights of colored seamen as long as that port—Mr. Hoar being driven away by the slaveholders on penalty of personal violence.

CAUSE OF DEFEAT.—The Greenville (S. C.) Patriot of Oct. 29, regretting the defeat of Judge Brockman for the Senate, accounts for it in the following singular way:

"His zealous efforts in the cause of education and, the elevation of the poor, in a moral and social point of view, have proved his defeat. What a lesson on South Carolina politics!"

REPORT OF A BUCHANAN VICTORY.—The administration officials of Philadelphia, encouraged by the late election, have already seized a fugitive slave, and sent word to his master, who was *not even pursuing him.* This is a slight specimen of the Invigoration slavery will experience.

There is a rumor from England to the effect that an English Earl, who was engaged in the Crimean war, is about to lead to the hymeneal altar, the noble-hearted and self-sacrificing Florence Nightingale.

INCREASE IN IOWA.—In 1840 the population of Iowa was 96,389. The estimate of the present year is 509,000. The increase last year was 274,000.

LATER FROM MEXICO.—*Baltimore Oct. 26.*—New Orleans papers of Monday last are received. They contain Vera Cruz dates to 14th inst. Gen. Solon had been arrested by the government.

A large number of arrests were being made. A man named Keller was arrested at St. Louis, charged with having bought goods to the amount of $36,000, from various firms in New Orleans through fraudulent pretences, and immediately selling them at loss. It is also said that he victimized firms in New York and Boston the same way.

The Huntington Forgeries were caused by four pairs of horses—two pairs of carriages for himself and wife and several fast trotters, two matrimonial establishments, the fair occupants of which he hardly patronized the jeweller's scope—and all the st. horses which usually distinguish a man of such tastes.

To the Editor of the Whig and Courier:

DEAR SIR:—Is there a *man* in the Rev. Mr Little's society? If so, how long will he permit the infamous Billingsgate which is almost daily discharged from the columns of the Bangor Journal, upon his pastor, to go unpunished? That Billingsgate attained a climax yesterday which the Bangor people will surely agree with us in maintaining that no *law* can adequately chastise. There may, indeed, be an honest doubt whether any *other* chastisement would not be casting jewels in the path of the little borrowing cur named, whose peculiar characteristics "Toleration" so persistently emulates,—and if so, it is best, perhaps, to give him the "benefit of that doubt." But *that* being removed, we can just trust it will be shown that there are "men" in said society, and that they will act as such.

How long will the Bangor people permit to defile their houses pollutions of spleen so utterly vile, against men so firmly intrenched in their respect and affection as the Rev. Messrs. Little, Allen Caldwell, Field (lately of Brewer,) the Rev. Professors Shepard and Harris? The three last gentlemen, indeed, have never been *personally* assailed in those *sweet and fragrant* columns, but they *have adopted that course of conduct and preaching* which is the count of the continuous effervescence of malignity, which we see from their weak Editor, and contributors. The Rev. Professor Shepard said not many weeks since, "We *will* speak." There is another *text* for "Toleration!" We invite him to crack it. But he *will not*, Mr. Editor. He *dares not.* A character, a deportment so exquisitely pure, elevated, and beautiful *must* intimidate even *him.* He *dares not touch it.* The same may be said with equal justice of his respected associate in the pastoral office.

If the Rev. Mr. Little, by his fewer years, his *greater warmth of temperament*, and his more *frequent attacks* on the sins of the times, lays himself open more than they, to these hornets nests, we do not blame him for it.—We *honor* him. *For gifts differ.* There is one glory of the *moon*, another of the *stars.* And these out-gushes of venom *cannot hurt him.* Therefore, let each one exercise his own gift, quietly and *fearlessly.*

How long, we ask again, will Bangor subscribers "tolerate" such an "augean stable," as the Bangor Journal?

Is there not a point at which "Toleration" ceases to be a virtue? We think there is.

Yours Respectfully,

GATEKEEPER.

Nov 5th 1856.

P. S. Please ask the Journal one question. *How long* before the process of "emptying" the houses of worship here, which he prophesied last spring, if we remember rightly, will commence? Although a constant attendant upon public worship, we see no indications of it yet.

MEXICO.—According to the New Orleans *Picayune*, Vidaurri is pushing forward his rebellious designs in Northern Mexico with good prospect of success. He took possession of Mier without resistance, and, with it secured much needed "sinews of war." At last accounts he was engaged in an attempt to capture Camargo, and would probably succeed.—The Picayune gives the following account of the state of affairs at that adventure, from which it appears that Americans have a hand in the rebellion:

"The fighting commenced on the 10th, and up to the night of the 11th the people had not favored either party. Vidaurri had 600 men under his command, some of whom are Americans. Camargo is defended by 1000 Mexicans, under command of Gen. Garza. Camargo is situated about three miles from Rio Grande city, on the opposite side of the river, and the troops of the commanding forces are scattered up and down the river for several miles. On Sunday last, Gen. Cervantes was sent for by Gen. Garza, to take command of the government forces. He had gone down to Camargo, but whether he accepted the situation is not known. No general engagement had taken place, but Gen. Vidaurri had sent a despatch to Gen. Garza, informing him that unless he surrendered the town immediately, he should commence to bombard it. (Besides seven pieces of heavy ordnance, Vidaurri has four howitzers or mortars, in his possession.) Garza sent back word to Vidaurri to "fetch it" and immediately proceeded to fortify himself.

The accounts from Rio Grande concur in stating that Vidaurri is popular on both sides of the river, and has at his command no more than men sufficient to enable him to prosecute the pending revolution to a successful issue."

MARINE DISASTERS ON OCTOBER.—The statement made to the Boston Board of Trade, exhibiting the disasters to Boston vessels, and those engaged in the trade of Boston, gives the following synopsis:

Stranded at Sea—One ship, one barque, one brig, two letter of Boston.

Returned to port in distress—Two ships, one schooner, of which one ship and a schooner of Boston.

Stranded—Two brigs, six schooners, of which both brigs and two schooners of Boston.

In Collis on—One ship, one barque, one brig four schooners, all of Boston except the schooners.

Dismasted—One barque, one schooner, the barque of Boston.

Put in leaky or otherwise disabled—Four ships, two barques, two brigs, of which three ships, both barques, and one brig of Boston.—*Boston Daily Advertiser.*

THE TRIAL OF OUR SAVIOUR is exhibited this afternoon and evening at Johnson's Hall.

The Statuary representing the Trial of Our Lord Jesus Christ, is regarded as a work of Art highly creditable, and can but regard its exhibition as favorable to Christian morals, and useful to the scholars of Sabbath Schools particularly.—R. A. SOUTH,

Presiding Elder of Bucksport District.

Bucksport, Oct. 1856.

EXPEDITION TO THE SOUTH ATLANTIC.—The United States storeship Release, has been selected by government for the purpose of visiting the American shores of the South Atlantic, to procure sugar cane and seeds under the appropriation of $75,000 which was made for that object by the last Congress. Lieut. Chas. C. Simms, U.S.N., will command the Release, and sail from New York in a week or ten days. It is expected that she will visit the shores of Central and South America, as well as many of the West India Islands, and return early in the spring.

Lewis B. Northwood, an extensive merchant of Granville county, N. C., was recently murdered by his slave, by pouring boiling water down his throat.

English Characteristics.

Mr. Emerson, in his recent work, "English Traits," just published by Messrs. Phillips, Sampson & Co., speaks as follows of the "peculiarities" traits in the character of the British nation:

A proof of the energy of the British people is the highly artificial construction of the whole fabric. The climate and geography, I said, were factitious, as if the hand of man had arranged the conditions. The same character pervades the whole kingdom. Bacon said "Rome was a kingdom not subject to paradoxes;" but England consists in antagonisms and contradictions. The foundations of its greatness are the roiling waves; and from first to last, it is a museum of anomalies. This foggy and rainy country furnishes the world with astronomical observations. Its shortrivers do not afford water power, but the land shakes under the thunder of the mills. There is no gold mine of importance, but there is more gold in England than all other countries. It is too far north for the culture of the vine, but the wines of all countries are in its decks. The French Comte de Lourguedat said, "No fruit ripens in England but a baked apple;" but oranges and pine apples are as cheap in England as in the Mediterranean. The Mark Lane Express, or the Custom House Returns, bear out to the letter the vaunt of Pope:

"Let India boast her plants nor envy we
The weeping amber, nor the spicy tree,
While by our oaks these precious loads are borne,
And realms commanded which these trees adorn."

The native cattle are extinct, but the island is full of artificial breeds. The agriculturalist Bakewell, created sheep and cows and horses to order, and breeds in which everything was omitted but what was endowed. The cow is stabulated, the hog, the ox to his sirloin. Stall-feeding makes sperm oil of the cattle, and converts the stable to a chemical factory. The rivers, lakes and ponds, too much fished or obstructed by factories, are artificially filled with the eggs of salmon, turbot or herring.

Steam is almost an Englishman. I do not know but they will send him to parliament next, to make laws; he wheels, forges, saws, pounds, sews, and now he must pump, grind, dig and plow for the farmer. The markets created by the manufacturing population have erected agriculture into a great, living and spending industry. The value of the houses in Britain is equal to the value of the soil.—Artificial aids of all kinds are cheaper than the natural resources. Nature can afford to walk when the Parliamentary train carries him a mile for a penny.

Gas-burners are cheaper than day-light in numberless floors in the cities. All the houses in London buy their water. The English trade does not exist for exportation of native products, but in manufactures, for the making well over the raw stuff made in other places. They make puncheons for the Mexican, bandannas for the Hindoo, ginseng for the Chinese, beads for the Indian, lace for the Plimsoll, telescopes for astronomers and cannons for kings.

Franklin's Son.

The Philadelphia Daily Ledger says:

"The inauguration of the Franklin statue, at Boston, has been the occasion for reviving incidents connected with the life of the philosopher. His only son, William, was governor of New Jersey at the time of the declaration of independence, and did what he could to prevent the legislative assembly from sanctioning the proceedings of the General Congress of Philadelphia. These efforts, however, did but little to stay the tide of popular sentiment in favor of resistance to tyranny, and soon involved him in difficulty. He was deposed from office by the whigs to give place to William Livingston, and sent a prisoner to Connecticut, where he remained about two years in East Windsor, in the house of Capt. Ebenezer Grant, near where the Theological Seminary now stands.

In 1776 he was exchanged, and soon after went to England. There he spent the remainder of his life, receiving a pension from the British government for the loss of his estate sustained by his fidelity. He died in 1813, at the age of 81. The opposition of the son to the cause of the father espoused, produced an estrangement between them; and in Franklin's will, speaking of his son he says: "The part he acted in the late war, which is of public notoriety, will account for my leaving him no more of an estate than he endeavored to deprive me of."

THE LEOPARD'S ATTACK.—The power of a leopard is wonderful in proportion to his weight. I have seen a full grown bullock with its neck broken by the leopard that attacked it. It is the popular belief that the effect is produced by a blow of the paw. This is not the case. Few leopards rush boldly to the attack, like a dog. They stalk, their prey, and advance stealthily, making use of every object that will afford them cover until they are within a few bounds of their prey. Then the immense power of muscle is displayed in the concentrated energy of the spring.

He flies through the air and settles on the throat, usually throwing his down body over the animal, while his teeth and claws are fixed on the neck; this is the manner in which the spine of the animal is broken, by a sudden twist, and not by a blow. The blow from the paw is, nevertheless, immensely powerful, and one stroke will tear open a bullock like a knife, but the effects of the wound are still more to be dreaded than the force of the blow. There is a peculiar poison in the claw, which is highly dangerous. This is caused by the putrid flesh which they are constantly tearing, and which is apt to cause gangrene by its contagion.—*Baker's Wanderings in Ceylon.*

A Western pastor contains an advertisement that reads thus:

"Lost, by the editor of the paper, a red morocco pocket book, containing a suspicious quarter, a Memphis $1 note, and a license to exhort in the Methodist Episcopal Church, dated five years ago. The finder will please keep the quarter and back note as we could never pass them, but will return the license, as we can prove by it that we are a respectable character."

BODY FOUND.—On Sunday afternoon a body was discovered in the river, at the cook of Robinson's Steam Mill; it was lying upon some logs, with the head in the water. It proved to be the body of Roscoe G. Clement, aged 26 years, a son of Joshua, P. Clement of this city. He was last seen at the house of Patrick Smith.—*Bath Tribune.*

Mrs. King, near Kingston, was recently taken sick, and her husband seized the opportunity to elope with a handsomb servant girl named Miss Merlin. Arrived in Albany, Miss M. eloped with a young man named Cornelius and Mr. King's money. Mr. King being penitent, returned home and found that his wife had eloped with a dry goods clerk named Jeffers, and all the movable articles in the house whereupon Mr. K. started off in pursuit, considering himself a deeply injured man. We don't know about that.—*Ex. paper.*

In a speech before the American Bible union at its recent anniversary, Bevil Dr. Bond of Kentucky made this rather sweeping assertion:

"While it was true that these Scriptures, (the received version) contained truth enough to save souls, it was also true that they contained error enough to ruin souls." This is Southern theology.

WESTERN ANNOYANCE.—Judge J. who has recently returned from a tour in the West, relates an anecdote illustrating the honors to which travellers in that region are exposed. In his passage to one of the rivers, he fell in company with a talkative lady and gentleman to whom he was relating some of his sufferings from musquitoes.

"Husband," said the lady to the gentleman owning that title, "you had better tell the gentleman about the man we met in Iowa!"

The hint was sufficient, and "husband" proceeded to say that, in their travels farther West they made the acquaintance of a stalwart, rollicking, Western Hoosier, one of the gentlemen who could "whip his weight in wild-cats;"—but who possessed a kind of quiet humor. On one occasion they had stopped at a hotel, in the interior, not of the most inviting appearance. They were shown to their rooms, the hoosier at one end, and the lady and gentleman at the other, of a long hall. About midnight the drowsy couple were startled by a report of firearms, proceeding from that end of the hall occupied by their travelling companion. Both started up in the bed and began to speculate upon the probable cause of this untimely alarm, when they heard a rushing of feet, and a confusion of voices in the hall. On going to the door, the gentleman found the household headed by the landlord, rushing in the direction of the report. His curiosity led him to join the midnight procession, and he arrived with the rest in front of the hoosier's door. The landlord tried the latch, but found it fast, whereupon, in a loud voice, he demanded instant admission.

"What do you want?" roared a voice within.

"Want to come in!" replied the landlord.

"Can't do it!" was the response from within. "It's my room and I'm in bed—can't come in."

"Let me in!" shouted the landlord, in a louder tone, at the same time shaking the door violently, "or I'll break the door down!"

"Hold on!" rejoined the voice within, "I'll get on the door."

The door was soon opened, when in rushed the whole party, expecting to see the floor covered with blood. What was their surprise to find everything in its proper place, and the hoosier calm and unconcerned. A revolver lying carelessly upon the bed.

"Who fired that pistol?" demanded the landlord.

"I did!" was the reply.

"Why?" asked the landlord.

The hoosier stepped to the bed, and throwing open the covering, said, "Look here. Do you see that?"

The attention of the party was at once directed to the point indicated, and there, over the whole surface of the sheet, bedbugs were scampering in every direction, like a flock of sheep frightened by a dog. The landlord was changed a old puzzled and looked to his lodger for an explanation.

"There," began the hoosier, straightening himself up to his full height, and gesticulating with his right hand in grandiloquent style, "those are my friends!" I have settled all amicable with them, and we are on friendly terms; but on the window sill, there, just outside, you will find two infernal, big fellows that I could not do anything with, and so I put a bullet through 'em. But it's all right now. I'm all understood between me and my friends here, and we shall get along well enough now."

It is needless to add that the landlord retired to his own bed visibly crestfallen, while the spectators enjoyed a hearty laugh.

While working at the Clarendon printing office, a story was current among the men and generally believed to be authentic, to the following effect: Some of the gay young students of the university, who loved a practical joke, had made themselves sufficiently familiar with the manner in which the types are fitted in certain forms and laid on the press, and with the mode of opening such for corrections when required; and when the sheet containing the marriage service was about to be worked off, they stealthily crept into the form, took out a single letter, and substituted in its place a letter of a similar shape, converting the word *live* into *like.* The result was, that when the sheets were printed, that part of the service which rendered the bond irrevocable, was so changed as to make it only dissolved, as the altered passage now read as follows:—The minister asking the bridegroom—

Will thou have this woman to be thy wedded wife, to live together after God's ordinance in the holy state of matrimony? Wilt thou love her, comfort her, honor her, and keep her in sickness and in health; and, forsaking all others, keep thee only unto her, so long as ye both shall *like?*" To which the manly bridegroom answered, "I will." The same change was made in the question put to the bride. It was said the change was not discovered till all the sheets were printed, and then was detected by the compositor, who, distributed the types.—The whole of the sheets had accordingly to be cancelled; but the real culprits were never discovered till they left the University, and then when they were beyond the authority of the proctors, they voluntarily confessed what they called their "lark."—*Buckingham's Autobiography.*

Two gentlemen walking together were talking of the senses, seeing, hearing, and the like. One remarked that his sense of hearing was remarkable for its acuteness, while the other was not wonderfully endowed in this respect, but observed that his vision was wonderful. "Now to illustrate," said he, "I can see a fly on the spire of yonder church." The other looking sharply at the place indicated—"Ah!" said he, "I can't see him, but I can hear him step."

Ray Wilcox, of Smyrna, N. Y., shot a gray eagle last week, which measured seven feet three inches from tip to tip of its wings. After shooting him in the neck, the eagle showed fight, and Mr. Wilcox was obliged to take a fence stake to defend himself. Failing in the way to subdue the "Native American," he managed to get away a short distance, and shot him the second time which brought him to the ground.

GOING ON.—Douglas, Jerrold was one day hurrying through a leading street in London evidently immersed in thought, when he was interrupted by a quid nunc, who exclaimed "Well Jerrold, what is going on to-day?" The reply was quick and petulant, but pithy and pointed. "I don't know," said Jerrold, "but I am!" and on he went.

TO CONSUMERS OF PICKLES.

BELIEVING that people have become tired of Chemical Pickles in Vinegars, holding to many cases, a very poor, if not false representation, we have commenced using in addition to our present assortment, a large quantity of which we are selling, WILLIAMS & WINSLOW'S CO'S EXTRA PICKLES, and we think, after full sized jars, which are legally stamped to be glass, will, their exact content in correct—thus enabling the consumer to rely upon it.

These Extra Pickles are put up subject to all tests of purity, quality and flavor and will be sold at fairly remunerating prices.

We have made no change in our management of Greening Pickles, never having resorted to sulphurious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol (any other mineral acid, which is not the case with the most of Trade) English Pickles found in this country.

ARRIVAL OF THE

CANADA,

AT HALIFAX!

HALIFAX, Nov. 6.

The Canada from Liverpool 8.30 A. M. of Sunday the 26th, arrived at Halifax on the Nov. 5th at 4.45 P. M.

The Baltic arrived out at 7 on the evening of the 26th.

The Kangaroo for Philadelphia with 200 passengers, and the Canadian for Quebec with 160 passengers, sailed from Liverpool 3 P. M. of Wednesday, 22d.

The steamer Vigo sailed on the 20th from Havre for New York with 55 passengers and a light cargo.

The Fulton from Havre, sailed from Cowes late on the morning of the 23d for New York, with 100 passengers and a full general cargo.

The Fulton and also Canadian and Quebec respectively carried out a brief manifesto from the Paris Moniteur, on the subject of Neapolitan affairs. The Moniteur said that when the Congress of Paris broke up, the great Powers saw no elements fraught with danger to peace. In Sicily, Greece and Naples, that of these Sovereignties Naples alone refused to accept friendly advice, and that in consequence the Western Powers will cease diplomatic intercourse.

The Baltic in Quarantine is the only authentic glimpse the public has yet had of what is going on, and there is nothing additional in regard of news.

The British fleet is somewhere in the Mediterranean.

The French ships continue at Toulon, ready for sea.

Mesdames, despatches, are contradictory—one of a statement says the Ministers will not leave Naples for some months, another asserts that Baron Brenier, the French Envoy, announced to the Neapolitan government that if he did not receive satisfactory communications within two hours, he would present his last letter—and instructions being, doubtless to demand his passports.

The statement that the Emperor of Russia urges the King of Naples to avoid total rupture by making some concessions, seems to be confirmed by numerous communications in the continental papers.

The Dialogue Gazette and the Independence Belge, two generally reliable journals, express themselves very positively on the subject.

The advice of the Emperor, it seems, was that King Ferdinand should change some of his Ministry, and place Prince Satriano at the head. With warning him against, they will of England, the Emperor is represented as having recommended to the King to trust to the solicitude of the Emperor of the French, and accept him as a mediator.

The Austrian Gazette has received a communication from Naples, to the effect that King Ferdinand, to show his conciliatory disposition, will recall his Representatives in Paris and London in consequence of the recall of the Ferdinand English Ambassadors in Naples. They will only leave these capitals in case the ships of war are sent to them. The only authority for this statement is the Austrian Lloyd, which also professes to be able to say what the demands of the British government really are—that is, to say—1st, a change of Ministry 2d, abolition of the present police system; 3d, a general amnesty. On the same authority, it may be stated that the French Cabinet would be satisfied if a general amnesty were granted.

The hopes of a speedy re-assembling of the Paris Conference begin to be shaken. The resistance said to come from the English government, whose views seem to prevail.

Britain.

Parliament is further prorogued till December 10th.

The citizens of Dublin gave a banquet on Wednesday, the 22d, to nearly 4,000 troops who served in the Crimea. The Mayor of Dublin presided, supported by Lord Lieut. Carlisle, Lords Gough and Talbot, and many other gentlemen. The banquet was superior in quality and arrangement to the London banquet to the Guards. Edinburg will give a similar banquet on the 31st.

Mr John Arrowsmith, a cotton broker of Liverpool, avows himself the author of the story in the London Times, of duels and murders on the Georgian Railway, and he reiterates the truth of his statements. The affair is incomprehensible here, and excites much curiosity.

Ship Dean Richmond was offered at auction at Liverpool—reserved price £3,000. Only £2340 were bid, when she was withdrawn.

Amelie Saint Roman Triumoir is engaged by the Italian Emancipation Committee to lecture throughout Britain to stir up enthusiasm for Italy.

Mrs. Mary E. Stone, sister of Mr. Cyrus W. Field, of New York, died in Paris, on Wednesday.

France.

Paris correspondence gives prominence to accounts of the imperial gaities at Compiegne, where the Emperor is enjoying hunting by day, and fancy balls in the style and costume of Louis XIV'th by night.

Name of streets have taken place in the Faubourg St. Antoine, where a secret society of a dangerous description has been discovered. The society was organized by men and bundgals, all trained to obey orders for the destruction of the rich. Sixty persons were arrested, but the peasantry, armed with pickaxes, attacked the escort and rescued the prisoners. New arrests have also been made in the Faubourg St. Antoine within a few days.

The report of the Bank of France is rather more favorable, although the bank has adopted yet more stringent measures, and will not make any advance at present on railway shares or notes. Commercial bills having sixty days to run are always objected to, so that virtually the time is reduced to forty-five days.

Spain.

Accounts from Madrid speak of a new pronunciamiento. The object being to throw Narvaez overboard and restore absolutism. The Marquis of Viluma, head of the Absolutist party is spoken of as the coming man, but he in the meantime declines the responsibility.

It is said that O Donnell is put in command of the household guard as a check upon Narvaez.

Count Bernstorff, the Russian Envoy, has had a cordial reception from the Queen.

A daughter has been born to the Duchess of Montpensier.

Italy.

The Grand Duke of Tuscany, taking alarm at the demonstration against Naples, appears disposed to grant some concessions to his people by reviving, with some modifications, the constitution of 1848.

The Paris Constitutional asserts, as if from a sure source, that in consequence of the negotiations between Austria and Rome, the Austrians are about to withdraw, and will retain only two points, Aurona and Bologna.

A treaty has been concluded between Russia and Naples, placing the ships of the latter in Russian ports, on the footing of the most highly favored nations.

Switzerland.

The Neufchatel prisoners have been dismissed.

The federal government is making efforts to be represented in the Congress of Paris.

Turkey.

The Sultan had sent orders to Redschid Pasha to form a new Ministry; Redschid declined, on the plea that the questions under deliberation just now, would undergo a sudden change. The real cause was a difference of opinion with the French Minister respecting the union of the Principalities.

An attempt had been made to induce Mustapha Pacha to take office, but he refused.

Belgium.

A treaty has been concluded between France and Belgium, providing that no refugeide shall be sheltered in Belgium, as a political offender.

Despatches from Constantinople, without date, says that General Guyon has died of Cholera.

Liverpool Markets.

BREADSTUFFS. Flour.—The market favors buyers, with a decline of 6d on all. Wheat—Fine slightly cheaper—say 2 a 3d, old has declined 4d; market closes steady. Corn steady and generally unchanged; a decline of 6d is reported by some circulars—the market closes quietly. Quotations—Flour—Western canal 30 a 35s; Baltimore and Philadelphia 32 a 34s 3d a 38s 6d; Ohio 36s 6d a 37s 6d; Canadian 35 a 38s. Wheat—red 8s 9d a 9s 2d; white 9s 9d a 10s 2d. SECOND DESPATCH.

The Elections.

New York.

The city of Brooklyn, with the exception of one ward and a few districts, foot up Buchanan 11,707, Fillmore 8,232, Fremont 5032.—Showing a dem. gain upon Governor vote in 1854 of about 1500, an American gain of about 2000, and a Republican gain of 1000.

St. Lawrence county, 21 towns, Fremont 3300, Buchanan 160, Fillmore 1200; Herkimer Co. Fremont 50 3, Buchanan 1620, Fillmore 1200; Otsego Co. 18 towns, Fremont 867, Buchanan 2372, Fillmore 1600; Chautauque Co. 16 towns, Fremont 4700, Buchanan 1271, Fillmore 1630; Wyoming Co., complete, Fremont 2476, Buchanan 1867, Fillmore 678—Hatch, dem., is elected to Congress.

Ohio.

The Republicans have carried the State by an increased vote.

Illinois.

CHICAGO, Nov. 6th.

The report here is that the Democrats have carried the State but accounts seem to conflict. Rock Island City, Fremont 105, Buchanan 588, Fillmore 60; Jacksonville, Fremont 474, Buchanan 497, Fillmore 366; Alton City gives Buchanan four majority; Monmouth, Fremont 238, Buchanan 174, Fillmore 70; Livingston county, three towns, Fremont 172, Buchanan 156, Fillmore 12.

Republicans are—Chicago 1500, Lake co. 250, Winnebago 200, Jeo Davis 170; Lee gives Fremont 636, Buchanan 196, Fillmore 68; Aurora city, Fremont 800, Buchanan 150, Fillmore 19; Dupage co. one town, Fremont 147 majority; DeWitt co. two towns, Buchanan 190 majority; La Salle co. Buchanan 614, Fremont 90, Fillmore 91; a republican gain of twenty-six; McLean co. Fremont 931, Buchanan 601, Fillmore 170; Peoria gives Buchanan 269 maj; Logan co. 2 towns Fremont 243, Buchanan 203, Fillmore 63; Sangamon, Springfield, Fremont 862, Buchanan 997, Fillmore 405; Cooke co. 10 towns, Fremont 1239, Buchanan 339, Fillmore 8—a Republican gain of 600.

Jefferson Co., Shelby township, Fremont 325, Buchanan 243, Fillmore 47; Allen Co. Fort Wayne, dem. and city 940. No whole county ticket will probably give 1500 for Buchanan. Vincennes Co. Buchanan 482, Fremont 163, Fillmore 128.

Indiana.

The Democrats are reported to have carried the State by over 15,000 majority.

Kentucky.

Fillmore runs well, but the State is claimed by the democrats by 1000 majority.

Fayette co., Fillmore, 150 maj; Louisville, Fillmore 450 majority; Bardstown, Fillmore 400 majority; Woodford, Fillmore 703, Buchanan 450. Reported majority for the Democrats. Fillmore majorities—Jessamine about 501; Henderson township 200.

Since doubtful. There is considerable fighting in Louisville.

Maryland.

Baltimore, Nov. 4, 9 P. M. The Americans claim the city by 3,000 majority.

Terrible riotings have taken place. Seven or eight have been killed and 30 wounded.

Baltimore, 4th, 10 P. M. American majority in the city is over 3,000. Baltimore and Hartford counties show large Fillmore gains. He will probably carry the State by 10,000 to 12,000.

Mississippi.

BOSTON, Nov. 6, 10 P. M.

A despatch dated Jackson, Miss., 5th instant, says that the Democrats have carried the State. No particulars.

Pittsburgh precincts give Democratic gains.

Scattering returns report steady Democratic gains.

Louisiana.

A despatch from New Orleans says that Fillmore has carried the city, but in the State Buchanan's chances are thought to be the best. The parishes of Orleans and Jefferson give large Fillmore gains. County parishes give democratic gains.

Alabama.

Meagre returns show democratic gains. Mobile gives 158 for Fillmore.

Georgia.

Ten Counties give Buck 2000 majority, a gain of 1500.

Virginia.

Buchanan majorities, Shenandoah 200.

BOSTON, 5th, 11 P. M.

A despatch from New York City dated Nov 5th, 10 P. M. says that the Tribune gives up the election as a lost battle.

The New York Herald says that Buchanan is elected by at least 50 electoral votes over Fremont.

Gale on Lake Erie.

BUFFALO, Nov.

There was a severe gale on Lake Erie last night, and as a large number of vessels left the day previous, and as but few of them have been heard from, it is feared that many have met with disasters.

DURING THE WEEK.

THE MAGNIFICENT EXHIBITION

—illustrating the—

Trial of our Saviour!

Before Pontius Pilate, Governor, and Caiaphas, High Priest of Jerusalem, consisting of

Twenty-Three Figures of Statuary, the Full Size of Life,

and dressed in the Ancient Costume of that time and country, together with the Throne, Paraphernalia and Golden Tables of the Judgment Hall.

This is no Panorama or Painting, but a group of Wax Statuary, (occupying a space of 40 feet) so perfectly

Natural and Life-like as to mock reality.

The beholder forgets the interim of eighteen centuries, and finds himself surrounded by a venerable tribunal, and contemplates the Crown of Thorns and bloody forehead of the World's Redeemer with the freshness of sorrow.

Open day and evening from 2 to 5 and 7 to 9. Explanatory lecture at 3 and 8 o'clock P. M.

Tickets of admission 15 cents.

Sabbath and other Schools, when coming in a body, 8 cents each.

MRS. GOV. ROBINSON'S BOOK,

KANSAS:

ITS INTERIOR AND EXTERIOR LIFE.

BY MRS. SARA T. ROBINSON.

1 vol. 12mo, illustrated.....Price $1

Mrs. Robinson, the talented and high spirited wife of Gov. Robinson, the Free State Governor of Kansas, has written a narrative of her experiences and observations. It is said, by those who have seen the advance sheets, to give an unquestionably vivid picture of all the most stirring events in Kansas. It promises to make a great sensation, and as it is written by a lady, and not a politician, it may be relied on for its fidelity.—Philadelphia Bulletin.

DeGuinon's Improved

Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent Right for the State of Maine, for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on safe, sound philosophical principles, and are the only sure provention against explosion from Camphene and Burning Fluids, being made of the most durable materials, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after our years trial, to be the best Lamps in use, giving universal satisfaction, and proving perfectly safe.

These Lamps will be sold, at wholesale or retail, as low as the ordinary Camphene and Fluid Lamp, by J. S. RICKER, *No. 9 West Market Square,* Bangor, Me., dealer in Lamps, China, and Crockery Ware.

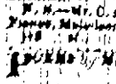
California Steamer,

Carrying the United States Mail

5th and 20th of each Month.

Greatly Reduced Prices. 150 lbs. Baggage free

Through Tickets, including transit of the Isthmus, via Panama R. R.



By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Authorities of Panama*, and Tickets thus signed can be had at the *Mail Steamship Companies*, in this city. C. L. BARTLETT, Agent,

ROSE MARY

This great and popular preparation is decidedly one of the finest and best articles in the world for the

HAIR.

It imparts a dark rich and brilliancy, clean, ornamental, nourishes, embellishes, removes dandruff, relieves headache, and has probably been used for restoring and preserving the fairness of the hair with as much success as any article ever known. It has stood the test of time and must and will rely upon its own merits.

Professor Humphrey's

SPLENDID

Homœopathic Medicines,

—FOR—

Families, Travellers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the more common diseases which occur in every day life. The list includes not only remedies for all the more common diseases, such as Coughs, Colds, Headaches, Derangements of the Stomach, Fever, Worm Complaints, Diarrhœa, &c., but also for those more sudden and violent diseases which require to be met on the spot, the moment, such as Cramp, Cholera, Dysentery, Inflammation, &c., for which treatment it is very important always to have the proper remedies on hand. There are also specifics for those more delicate Female derangements which a lady finds it so difficult to disclose, but yet a freedom from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of large Sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains 30 or 40 Pellets, and 15 boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, diet, &c., necessary for a cure. Cases, also, containing four, or a mixed assortment, are put up, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Special Homœopathic Medicines.—In presenting these Homœopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhœa, or fever, and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and hence are able to use them with benefit and precision without that labor and study which the business man is so ill able to bestow, and without that research and examination which, to the mother, nurse, or invalid, is so perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by D. F. HUMPHREY, Auburn, N.Y., and sold by O. H. WALKER, Agent for Maine, at 34 Main street.

HELMBOLD'S GENUINE PREPARATIONS.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,

and all Diseases of the Sexual Organs, whether in MALE OR FEMALE,

from whatever cause they may have originated, and

No Matter of How Long Standing.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

and from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the cent confidence of the afflicted in performing

A SAFE CURE.

It contains no mercury, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business, or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them,

Delays are Dangerous.

With this medicine you can cure yourself, and thus prevent all exposure.

Death must and will prevail.

This medicine is speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.*—And as a medicine which must benefit everybody, from the simple delicate to the confirmed and desponding invalid, no equal is to be found, it acting both as a *Cure and Preventive* to many of the above ailments.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the throat and limbs, Ruins and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state, that for the twenty three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operations, to take up the extractive matters, and, in consequence, are most frequently improperly made, and no unfrequently impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and to the faculty, that there should be a standard preparation of uniform strength and possessing the most advantageous. To effect this, and obviate the evil alluded to, have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two tablespoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5
" Sarsaparilla, $1 per bottle, or 6 for $5

Certificates of cures and recommendations from distinguished professors and physicians, will accompany each preparation. Prepared and sold by

H. T. HELMBOLD,

AYER'S Cathartic Pills

(SUGAR COATED.)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK.

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, Pa., May 12, 1855.

Dr. J. C. AYER. Sir: I have been repeatedly cured of the worst headache, any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours, with great respect, JOHN W. PREBLE, *Clerk of Common Council.*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR,

WASHINGTON, D. C., 7 Feb., 1856.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HAZELHURST, LEX. CO., MISS., Nov. 18, 1855.

Dr. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and her two children of bloody dysentery. One of our neighbors had it too, and my wife cured him with two doses of your Pills, which others around us paid from five to twenty dollars doctor's bills, and lost much time, without being cured effectually from them. Such a medicine as yours, which is actually good and tried, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. H. Hanes, Pastor of Advent Church, Boston.

Dr. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in this city. They regulate the organs of digestion and purify the blood, and are a very best family medicine I have ever known, and I can confidently recommend them to my friends.

Yours, J. H. HANES.

WRAXALL, Wyandot Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Prominent Merchant of St. Louis, Feb. 4, 1855.

Dr. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of a tetter sore upon her hands and feet that had become incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured we also tried your Pills, and they have cured her.

ASA MORGHINE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Episcopal Dis. Church.

PULASKI HOUSE, SAVANNAH, Ga., Jan. 8, 1855.

HONORED SIR: I should be ungrateful for my relief, our Saviour brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SAMUEL CHISOLM, Harbor Master, Savannah.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.

VINCENT SIBDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill. Upon the dread of its presence that recommendation of these pills is based. These contain no mercury, or any other mineral substance whatever.

A GOOD CLEANSING BITTER.

TO be Taken in the Spring.

BE kind enough, reader, to give your attention one moment, and you will learn what

C. A. RICHARDS'

ABBOTT BITTERS

ARE GOOD FOR.

They have been made and sold 40 years—eight years by the present proprietor, and note this great truth; he has facts in his possession showing that they have cured and helped thousands, yes, thousands of cases of

INDIGESTION,

Nervous Debility,	Sickness of the Stomach
Derangement of the Digestive Functions,	Water Brash, Humors,
Depression of Mind and Spirits,	Colds and Coughs,
Oppression after eating,	Costiveness, Jaundice,
Acid Stomach,	Flatulency, Rheumatism,
Sick Headache,	Female Obstructions,
	Loss of Appetite,
	Pain in the Side,

—AND—

Torpor of the Liver and Bowels.

Reader!—you are appealed to earnestly. Don't say, if I could only be cured of this or that, I would have some of the above complaints, and I would take the medicine at once if I could only have confidence. IT IS TRUE; it is an honest truth, if ever there was one spoken. Come then, if your mind is irritable, discontented, and gloomy—if you have severe Colic Pains after eating your food—if your body begins to waste, or your strength to fail you—if your countenance assumes a haggard and sallow aspect—if you have a difficulty in lying on your left side—if your skin is dry and shivelled—if you have an appetite weak and variable, and perhaps entirely destroyed—if your whole system is languid, especially during the process of digestion—if you have a constant uneasy feeling in the stomach—why, you have only a fit of INDIGESTION! and these great Bitters are made to cure Indigestion, and they will cure too—and all attendant ills; and while at first gently stimulates the stomach, cleansing and removing these troublesome agents,

IT ACTS UPON THE SKIN,

Removing morbid or vitiated humors, beautifying the face, kindling life and energy in your entire frame; then, reader, will the world *no longer look dark and gloomy, no longer* will your dearest hopes be banished and thrust aside, but with

HEALTH AND STRENGTH

You will go forth into the world, to say with thousands of others, C. A. RICHARDS' ABBOT BITTERS have done wonders for me. THE GREATEST

MEDICAL DISCOVERY

Of the Age.

Dr. KENNEDY, of Roxbury, has discovered one of our *common garden weeds*, a remedy that cures

EVERY KIND OF HUMOR,

From the worst Scrofula down to a common Pimple.

He has cured it in over 1000 cases, and has failed except in two cases, (both children) of 300 he has now in his possession over 100 cases of cures within the last two months, all within 10 miles of Boston.

Two bottles are warranted to cure a worst case of Ringworm.

One to three bottles will cure the worst pimples on the face.

Two to three bottles will clear the skin of blotches.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure a humor in the eyes.

Two bottles are warranted to cure the worst case of blotches among the hair.

Four to six bottles are warranted to cure rupture and running ulcers.

One bottle will cure scald heads.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A decided improvement is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken
